EMERGENCY VEHICLES, INC.

Custom Built for West Palm Beach

24-Ft Gooseneck Trailer

Ford F-550 Cab/Chassis

Custom Built for West Palm Beach Fire Rescue (USAR)

This 24-Ft custom trailer is designed to provide easy access to the tools you need when deployed to the incident site. The front two compartments have full pass through capability with dual direction slide-out trays and flip-down steps to help reach the upper shelves. The two compartments on each side to the rear provide quick access to smaller tools and equipment. The rear compartment provides extended depth of over 12-Ft of storage for large poles and timber. A fold-down ramp improves access for loading and unloading. The unit has an on-board 6.5kW generator to provide support for electric cord reels, light poles and other powered equipment. This combo also included a custom modified Ford F-550 Super Duty cab / chassis designed specifically to interface with the trailers emergency light package for safe unit deployment.
